

GLOBASKET EXPERIENCE 2020

OFFICIAL STATEMENT

Barcelona, 14th March, 2020. - **Globasket** has as its founding value that young people from all over the world connect with each other based on the common practice of formative basketball.

The serious world pandemic situation caused by the spread among people due to the COVID 19 that started in China and which, as of today, is already present in most countries of the world, is a **SERIOUS CONDITIONER** to be able to Carry out the celebration of the next 2 shifts of Globasket 2020 (1st shift from April 4 to 9 and 2nd shift from April 13 to 18) as normal. Both the Ministry of Health of the Government of Spain and the Generalitat of Catalonia invite us to have to stop it, the Health of our young people being what matters most to us and that is why we understand it and fully commit ourselves.

The entire Globasket team has been with this project since July 2019 and we do not want young people to miss this opportunity to participate, and that is why, as a positive factor, we urge you to wait until next month March 2021 (1st shift from March 27 to April 1 and 2nd shift from April 5 to 10) in which we carry it out.

Our entire Globasket team is still at your disposal to coordinate your doubts and concerns and we will assist you in order to overcome this transition period in the best possible way and continuing with news that in the next few days you will already know.
